

# NEANN NIEJ Immobilisation & Extraction Jacket

## Specifications

---

### DIMENSIONS

**Dimension of the NIEJ stored is:**

- Length 83 cm
- Height 13 cm
- Width 26 cm

**Dimension of the NIEJ fully opened is:**

- Length 81 cm
- Height 2 cm
- Width 86 cm

### WEIGHT

Weight of the NIEJ is 4.5 kg including storage bag.

### SAFE WORKING LOAD

The safe working load of the NIEJ is 130 kg.

As all plastic side release buckles on CEDs are not rated for weight bearing by the manufacturers of such devices, it is estimated that each side release buckle has a 65 kg non dynamic (static) load bearing limit.

Therefore, with two groin straps, the safe working load of the NIEJ and all other CEDs using side release buckles can only be rated to a safe working load of 130 kg.

For technical rescue situations requiring vertical lifts above the 2 m as specified in the Australian Standards - Prevention of Falls 2007, it is recommended that a twin rope system be used for such rescue with a second harness that complies with the Australian Standard - Harness and Lifelines 1891.1.
