

CPR-2 BVM Resuscitation with Manometer

Positive Pressure Ventilation and Self-inflating bags with Manometer.

Mercury Medical[®] offers you the most comprehensive resuscitation systems designed to provide or perform for better patient outcomes.

The **CPR-2** is a full line of resuscitators manufactured with new thermoplastic bag material providing superior lung compliance “feel” with exceptional responsiveness.

-  **Colour-Coded Manometer**
The Manometer allows for in-line monitoring and has a colour-coded label for improved visibility and accuracy in delivery of pressure ranges.
-  **Monitors both airway and Positive End-Expiratory Pressure (PEEP)**
To warn high or low-pressure conditions in the breathing system by using a non-invasive technique that helps in assessing the patient's mechanical and spontaneous ventilation and determining the presence of Positive End-Expiratory Pressure (PEEP).
-  **Fast re-expansion**
For high breath-per-minute capability. Hygienic and Biocompatible. By using Latex-Free medical grade thermoplastic (PVC) bag material.
-  **Multiple sizes**
Comes in 3 sizes: Adults, Children and Infants.
-  **Optional extras**
Exhalation Filter and MR Conditional Peep Valve accessory and or colorimetric CO₂ detector accessory.

**IN-LINE MONITORING
EXCEPTIONAL RESPONSIVENESS
SUPERIOR LUNG COMPLIANCE**

is a division of RAPP Australia Pty Ltd

Pre-eminent supplier of pre-hospital emergency and rescue equipment for First Responder, Ambulance and Fire Services since 1983

Provider of ancillary emergency products for all emergency situations including military, mining, diving and other recreational activities

Shared Goals

We share with almost all of our customers these three foundation goals:

- Effectiveness
- Reliability and
- Safety of use

We make it our business to help our customers to achieve their goals

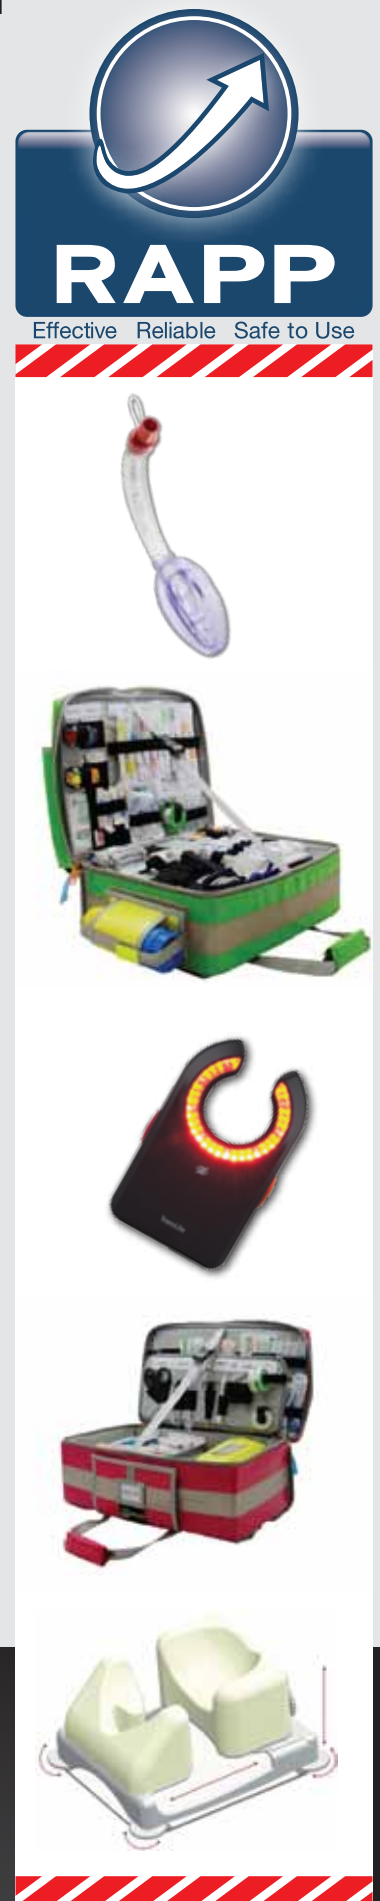

Shared Achievement

We successfully work with our customers to ensure that they can provide the most appropriate equipment and supplies to their personnel, both professional and volunteer, to assist them to complete their tasks successfully and ensure they return safely

Future Commitment

To maintain our leadership position we commit to:

- continuously apply innovation to our existing products,
- work with our our customers' design teams to develop new products
- constantly search the world for latest best-practice, and introduce those which fit as soon as practicable
