

RES-Q-VAC

RES-Q-VAC is a high-quality non-electric suction pump with removable single patient use canisters and catheters.

Reliable hand-operated advanced suction system which provides a full range of suction options for every medical requirement.

- Always ready to go
- No set-up required
- No batteries to recharge or replace

✓ Convenient one-hand operation

Rugged materials, clever design and simple hand operation combine to make this unit 100% reliable for immediate availability of suction and a long shelf life.

✓ Portable and power safe

The system is totally portable providing powerful suction anywhere and anytime it is needed – even when the power fails, or isn't available.

✓ Safe to use

Each unit is 100% tested for reliability which makes this device the safest hand powered suction unit available.

✓ Suits a wide range of patients

The RES-Q-VAC First Responder Kit has a full range of optional suction catheters to meet all the needs of adults to the tiniest of infants.

✓ Ready to reuse

The main suction unit is reusable with quick release changeover capture jars.

✓ Easy to clean

Single patient use capture jar and catheters dispenses with cleaning and decontaminating the capture container for re-use.

✓ Optional extras

With the LED Light option for illuminating airways you can rest assured that you are covered for all emergency situations.

SAFEST HAND POWERED SUCTION UNIT • SIMPLE OPERATION
RELIABLE • CLEVER DESIGN • NO SET-UP REQUIRED
