## NEANN HITH Equipment Kits

Specifically designed for Hospital in the Home (HITH) use, our kits are a premium quality solution to your equipment-carrying needs.

### Easy-to-use and easy-to-carry

The NEANN HITH Equipment Kit is designed to be as light as possible and provide enough equipment for day-to-day duties. With our new bright EnvironFrei material colours, this kit is easy to see in any situation and the surface is simple to clean.

### Product specific allocation including personal items

#### Avoids overstocking and wastage

From the Obs equipment to IV, there are no search and select issues as everything has a place and everything is in its place. This is due to the simple layout design which makes restocking quick and easy.

The Equipment Kit also has a handy front pocket for the option to place personal items such as your keys, phone and patient notes.

### Convenient desk space

When space is an issue the Equipment Kit provides a convenient wipe clean desk area that can be simply removed (as it is detachable) or replaced if required.

### Replaceable parts

Replaceable parts are available for the HITH Equipment Kit including the very comfortable shoulder strap and interior pouches.

### Designed to suit your situation

HITH Equipment Kits can be designed to suit your individual situation or requirement. Simply contact us and we will be happy to customise a kit to suit your requirements and environment.

## EnvironFrei

### State-of-the-art, wipe-clean anti-microbial material

This revolutionary material is free from hazardous elements, delivers a strong fabric that minimises the chance of cross-contamination and it also prevents dangerous chemicals remaining on the surface which, could in turn be absorbed into your skin.

The introduction of EnvironFrei has been greatly received and the uptake has been swift. We have developed a product that has proven to be durable, effective in protecting the user, and environmentally sensitive – in addition to looking great!

EnvironFrei has been independently tested, confirming its superiority to common place materials ensuring a stronger, longer lasting and more durable product.

For more information on Environfrei please visit our website – [neann.com.au](http://neann.com.au)

# Why purchase our NEANN Kits?

NEANN is an Australian-owned company with our manufacturing headquarters based in Geelong. We have our own in-house design team along with customised printing, stitching and sewing and the highest quality control manufacturing standards working to ISO:9001.

Our kits are made with durability and longevity in mind to provide the best long-term value for your service. Below is an overview of why NEANN kits continue to lead the market from our competitors in our pursuit of producing effective, reliable and safe-to-use products.

## We can design a customised bag for you

Full customisation is possible to suit the equipment you need to carry, even if you only require a few bags in total.

Talk to us, we can design based on your needs. We manufacture for a range of monitors, pumps, diagnostic and imaging devices. We can manufacture a bag to suit your needs and budget.

## EnvironFrei

- Modern state-of-the-art material.
- Stronger and highly durable.
- Improved infectious control.
- Sustainability.

## Cross contamination

Our custom-made antimicrobial EnvironFrei material for our medical kits improves infectious controls and minimises cross contamination.

Our wipe-clean outers and inners allow easy cleaning off of many different types of bacteria, infections and grime.

## Product labelling

- Zero search and select issues.
- Unique internal labelling system for rapid location and easy identification of products in an emergency.
- Easy to re-stock.

## Handles, zips and straps

Our equipment kits are designed for high visibility and to be ergonomically comfortable for day-to-day use.

- Coated aVector webbing handles.
- Padded, adjustable and replaceable shoulder slings.
- Heavy duty zip placed to give maximum access to the kit's interior with long zip pull tabs for ease-of-use if hands are gloved.

## Clear, open design

Separate dividers or elastic holders to keep products in their place and to prevent spillages, ensuring equipment is always secure. Allows all gear to be easily located.

## Layout guides

To assist user in quickly identifying and re-stocking products, saving time.

## Brand your kit with your logo

Your business' logo, company name, address can be added to the kit.

## No velcro

We use magnets to make our kits easy to clean.

## Removable panels / inserts

Removable panels or inserts that can be interchangeable to suit multiple users when on the run or if equipment brands or devices need to change.

## Padded and comfortable

Designed ergonomically to provide comfort and support in all terrains. Padded with stiffener and foam, these kits are designed to endure the harsh outdoor environments while being soft and padded for easy storage.

## Multiple colour options

- Colour coordinate the material for the type of equipment housed.
- Light and easy-to-see colours.

## TGA Certified

Our kits are certified to ensure to you are getting the best quality product that complies with the Australian Therapeutic Goods Administration (TGA).

## Warranty

All kits supplied should be free from defect, should this not be the case we will replace or repair the item (at our option).
